BRIEF ABSTRACT OF LETTER.

With refee to this office letter no: ~~Gefee~~ H 1812 med 137-15 dt 18.9.16 submits draft of a Scheme for opening a Medical School in Bangalore, with his views in regard to the proposal.

NOTES AND ORDERS.

The Senior Surgeon suggests the following alternatives to get the required number of Sub Asst Surgeons trained for Service in the State:—

(1) Requesting the authorities of the Poona Medl School to admit for training therein a batch of 12 students of the

Final Note by the Second Member of Council.

Subject:—

33 Scheme for the opening of a Medical School at Bangalore

---

1 In accordance with the suggestion in paragraph 6 of the Final Note in Medical File 137 of 15 approved of by His Highness, revised proposals have now been received from the Senior Surgeon for the opening of a Medical School in Bangalore for the training of Sub Assistant Surgeons.

Paper under this head

2 The revised scheme and the observations thereon contained in Senior Surgeon's letter No.G.124 dated 30th October 1916, have been duly considered in Council and a copy of the Council Resolution is appended. In accordance with the Council Resolution a draft of an order is put up which explains the salient features of the scheme. It is agreed to by the Financial Secretary and may be approved.

Encls. 1

Office of Senior Surgeon, Mysore Govt.

Dated, Bangalore, 30th October 1916.

From

Rajakarya Pravina

Rao Bahadur T. V. Arumugam Mudaliar, Esq., M. B., C. M.,

Senior Surgeon with the Government of

H. H. the Maharaja of Mysore, Bangalore.

To

The Secretary to the Government of

H. H. the Maharaja of Mysore,

General Deptt., Bangalore.

Sir,

With reference to your letter No.1812-Med.137-15, dated 18th September 1916, requesting me to submit a comprehensive proposals for the opening of a Medical School in Bangalore, I have the honor to state as follows

2. In order that the training given in our Medical school may be thorough, it is necessary that we should have the school completely equipped with chemical, anatomical, physiological and pathological laboratories, and situated at a convenient distance from the principal medical institutions in which the students will have to receive their training in practical work.

3. I cannot find any suitable building in the Fort wherein the school can be located. A new building will have to be constructed. As the question of shifting the maternity to the Fort is also under consideration, I would propose the acquisition and demolition of all the existing buildings in the Fort, that lie within the sector bounded by the Fort Centre Road, the Albert Victor Road and the Fort wall and the construction of the buildings required for the Maternity and the proposed Medical School

on

on the area thus set free.

4. We have just 8 months between now and the 1st of July 1917 when the next session will have to commence and it is very unlikely that we shall be able to get the new buildings constructed and the laboratories equipped within this time. As the Madras Government have expressed their inability to find accommodation for Mysore State pupils in any of their schools and an assurance has been given to them that no more students will be sent there from next year, I would, rather than start work with hasty and incomplete arrangements, seek to gain time by requesting the authorities of the Poona Medical School to admit a batch of 12 students of this State next year. If the Government should approve of the same, I shall address the Superintendent of the Poona Medical School if he can possibly help us for a year or two, if need be.

5. Should the Government be not in favor of the above proposal I would, as a make-shift arrangement, propose to start our Medical School on the 1st July 1917 by opening only the first year's class of 12 students in one of the rooms (say, the office room) in the Victoria Hospital, using the dead house as the dissection room. If further time be found necessary, one of the rooms now used for the out-patients' department which will be set free after the construction of the proposed Puttanna Chetty Block, will be utilized for the second year's class which will have to be opened in July 1918. This arrangement will take us on to the end of June 1919, by which time we ought to be able to get the new school buildings and equipment completed.

6. Whether we start the school as stated in para. 5 above or in the new building, it will have to develop gradually, i.e., the first year's class alone will be started in the first year, the second and third years'

classes

will be added in the second and third year, respectively, and the complete four years' course will be provided from the fourth year onward. It is not desirable to withdraw from the Madras and Poona schools our State Medical pupils who are now studying there and to disturb the continuity of their studies. They may be allowed to complete their training in those schools. It does not appear that such a withdrawal is contemplated in your letter No.Pol.269-Med. 137-15, dated 8th September 1916, to the First Assistant Resident, a copy of which was forwarded for my information with your memo No.1813-Med.137-15, of the same date.

7. As regards getting some students from each district for training in the medical school, I think that the usual offer of scholarships if advertised, will attract the dozen students required for a batch and it will not be difficult to select candidates in a way that each district is represented, provided only that candidates with proper qualifications do apply.

8. A draft of the scheme as revised by me is appended hereto. I explain below the chief points in which it differs from the scheme submitted by this office in 1913.

(1) The existing practice of giving scholarships to selected candidates is proposed to be continued until such time as experience may show that students will come in without the inducement of scholarships and that candidates will, after obtaining qualification, join the service without any special binding covenant.

(2) The appointment of lecturers will be made from the local Medical and Sanitary Departments in which there are enough officers (many of them with European qualifications) competent to teach and there is therefore no need to go outside the service. As a tentative measure I would propose the following officers to be the lecturers in the subjects noted against each:-

The Medical Officer, Victoria Hospital, to be the Principal and Lecturer in Medicine and ~~general Pathology~~. Materia Medica & Therapeutics

The Specialist, Throat, Nose & Ear Department, Victoria Hospital, to be lecturer in Anatomy, Operative Surgery & Throat, Nose & Ear Diseases.

The Assistant to the Chemical Examiner, to be lecturer in Chemistry, Physics, Bacteriology and Tropival diseases.

The Resident Medical Officer, Minto Ophthalmic Hospital, to be lecturer in Physiology and Ophthalmology. ~~and general Pathology.~~

The Haalth Officer, Bangalore City, to be lecturer in Hygiene and Forensic medicine.

The Resident Medical Officer, Victoria Hospital, to be lecturer on Surgery, Midwifery and diseases of women & children and general pathology.

The Superintendent, Lunatic Asylum, to be lecturer in Lunacy (theory & clinics).

The Assistant Surgeon, in charge, Vaccine Institute, to be lecturer in Vaccination.

Any of the junior Medical Graduates in Bangalore, attached to the dispensaries or hospitals in the Bangalore City, to be demonstrators in anatomy and physiology.

(3) The expenditure on pay and allowances will only gradually increase, according to the number of lecturers that will have to be entertained in the first, second, third and fourth years, respectively. . In the first year for instance, only three lecturers will be needed, costing Rs.1,500 and two demonstrators, costing Rs. 480 besides the administrative staff costing Rs.1,404.

(4) The remuneration to the lecturers has been fixed for the whole course of work in a year, according to the length of each course, instead of fixing the same by the month.

I submit the scheme for the consideration and orders of Government.

I have the honor to be,
Sir,
Your most obedient servant,

Senior Surgeon.

Enc to mid 31-16-5

Revised draft of a scheme for establishing a Medical School in Bangalore.

Scope and object.

The (proposed) Medical School is primarily intended to train Sub Assistant Surgeons required for the Mysore subordinate Medical Service. When, however, accommodation is available, admission will be given to candidates desiring to qualify themselves as Private Medical Practitioners, preference being always given to natives of Mysore over outsiders. The development of the school, in course of time, to the grade of a College preparing candidates for Medical Degrees, will be kept in view.

Location.

2. The school will be located in a building to be newly constructed on a site situated at a convenient distance from the principal hospitals in Bangalore, viz., the Victoria Hospital, the Minto Ophthalmic Hospital and the Maternity Hospital. The most convenient site is the one that will become available by the acquisition and demolition of all the buildings standing on the area bounded by the Albert Victor Road, the Fort Centre Road and the Fort Wall.

Accommodation.

3. The buildings will, for the present, consist of four class rooms sufficient for 50 students each, dissection room, pathological, physiological and chemical laboratories, a Museum, a Library, office room and a hostel.

The plan of the buildings should be so drawn up as to admit of future extensions in the event of the school being raised to the grade of a college.

Qualifications for admission.

4. Candidates for admission to the Sub Assistant Surgeon's course should not be less than 16 or more than 22 years of age; should produce a certificate of good moral character signed by the Head Master of a recognised High School or any Gazetted Officer of the Mysore Service; a physical fitness and vaccination or revaccination certificate according to the rules relating to the public service; and a certificate of having passed the Mysore Secondary School Leaving Certificate Examination or any other equivalent examination, such as the Matriculation examination of any Indian University.

Rates of fees.

5. Each student will have to pay an admission fee of Rs.2, a tuition fee of Rs.36 per annum and an examination fee of Rs.15 for the final (or qualifying) examination, besides providing himself with the necessary books and instruments. In the case of stipend-holders, the cost will be borne by the Medical Department.

Course of study.

6. The course of studies for the Sub Assistant Surgeon's qualification will extend over a period of four years, the subjects being distributed as follows:-

FIRST YEAR.

7

FIRST YEAR.

1st Term	2nd Term.
Chemistry.	Physics.
Anatomy.	Anatomy.
Dissections.	Dissections.
Physiology.	Histology & Chemical & Experimental Physiology.

SECOND YEAR.

Anatomy.	Anatomy.
Dissections.	Dissections.
Physiology.	Histology Etc.,
Materia-Medica & Therapeutics.	Practical Pharmacy.

The students will be required to attend the out-patients' department in the Victoria hospital in the mornings and evenings.

THIRD YEAR.

Medicine.	Bacteriology & Tropical Medicine.
Surgery.	Forensic Medicine.
General Pathalogy.	Lunacy.
Hygiene.	

During the period the students will be made to undergo a clinical course in the hospitals (3 months dressing, 3 months in Medical wards, 3 months in Surgical wards 2½ months in the Lunatic Asylum & 15 days in Vaccine Institute.)

FOURTH YEAR.

Medicine.	Operative Surgery.
Surgery.	Diseases of women & children.
Midwifery.	Ophthalmology.
	Throat, nose & ear diseases.

The clinical course in the fourth year will consist of 3 months in the Maternity, 3 months in the Ophthalmic Hospital and the rest in the Medical & Surgical wards of the Victoria Hospital.

At the end of each year there will be an examination in the subjects studied during the year, on the results of which promotion to the next higher class will depend. A pass in the final year's examination will qualify for the diploma.

Staff.

7. The staff will consist of:

Administrative.

Administrative

		Per annum.
Principal- Allowance @ Rs.50/-per mensem	--- Rs.	600
Clerk @ Rs.20-1-30	"	240
2 Peons @ Rs.8/ each	"	192
2 Toties -do-	"	192
Laboratory Attender @ Rs.15-1-20	"	180
Total	Rs.	1,404

Tutorial.

The allowances suggested for the Lecturers are subject to revision in the light of further information called for regarding the rates obtaining in the British Indian Government Medical Schools.

Lecturer in Anatomy		"	500
-Do-	Operative Surgery, Throat, Nose & Ear Diseases	"	500
-Do-	Physiology	"	500
-Do-	Chemistry & Physics		500
-Do-	Materia Medica & Therapeutics	"	500

-Do-	Pathology	"	150
-Do-	Bacteriology & Tropical Diseases--		150
-do-	Medicine		300
-Do-	Surgery		300
-Do-	Midwifery & Diseases of Women & children		300
-Do-	Ophthalmology		150
-Do-	Lunacy		100
-Do-	Vaccination		50
Honorarium to Lady Medical Officer, Maternity.			150
Demonstrator in Anatomy @ Rs.20			240
-Do-	Physiology	"	240
Gymnastics Teacher @ Rs.15/-			180
	Total	Rs.	5,310

Contingencies

Stationery --	Rs.	300
Honorarium to Examiners	"	700
Chemicals for Laboratories	"	2,000
Total	Rs.	3,000

GRAND TOTAL COST Rs. 9,714.

To be omitted in the Memo

(to which another Rs.120 and Rs.60 will have to be added when the clerk and the laboratory attender reach their maximum pay, the maximum cost per annum then being Rs.9,894.)

Cost of scheme.

8. The cost of the scheme can only be roughly estimated.

To be filled

Initial.

Acquisition of site, etc.	Rs.15,000	~~Acquisition~~ (Excess, if any, to be charged to Maternity)

9

Initial.

Acquisition of site, etc. (Excess, if any, to be charged to Maternity.)	Rs.15,000
Buildings ---	" 50,000
Equipment of laboratories	" 10.000
Total	Rs.75,000

Recurring

Minimum	Rs.9,714 per annum or	
Maximum	---9,894--- or	Rs.10,000

Income.

9. The income also can only be roughly estimated. Even when no private paying students seek admission, there will be 12 covenanted pupils deputed by the Medical Department, so that the least number of students that the school may ever contain is 48, at 12 in each of the four classes. The maximum strength is 200, at 50 in each class. The total amount that will be paid by each student for the four years' course is

Entrance fee	Rs. 2	
Tuition fee 36x4	Rs.144	
Examination fee	Rs. 15	Rs.161

or an average of Rs.40 per annum. Thus, the minimum income from 48 Departmental pupils will be Rs.1,920. The maximum income from 200 students will be Rs.8,000, per annum.

General.

10. The management of the school will vest in the Principal, aided by a school council composed of himself as President and four lecturers (to be nominated by the Senior Surgeon) as members. The Senior Surgeon will exercise general supervision and control. All questions relating to the appointment of examiners, lecturers, etc and the drawing up of curricula of studies or making any changes therein, will be decided by the Senior Surgeon.

Senior Surgeon.

Scheme for opening Medical School in Bangalore.

Proceedings of the Government of His Highness the Maharaja of Mysore.

Read--

Correspondence ending with letter No.G.124 dated the 30th October 1916 from the Senior Surgeon in Mysore submitting for orders a revised draft of a scheme for the establishment of a Medical School in Bangalore.

Order No. 6855-62 med 31-16-7.P.

Dated Bangalore, the 28th March 1917.

Under an arrangement approved by the Government of Madras in the year 1870 the State Medical pupils are being admitted into the Medical Schools in the Madras Presidency and given the training necessary for employment as Sub Assistant Surgeons.

2. In view of certain difficulties recently expressed by the Government of Madras in the matter of finding sufficient accommodation in the several schools of the Presidency for the large number of students seeking admission therein Government consider that time has now come to make local arrangements for the training of Sub Assistant Surgeons required for service in the State. The scheme now submitted by the Senior Surgeon seems suitable and is generally approved. A memorandum

indicating the lines for working the institution as approved by Government is appended to this order.

The Senior Surgeon is requested to submit for the orders of Government a list of lecturers with the remuneration suggested in each case. As the work will fall outside the present legitimate duties of officers of the Department their wishes in regard to the remuneration for the lecturing work should be consulted. The question of appointing a few whole time lecturers on important subjects should also be considered and reported upon in due course.

3. The Mysore Medical School will be started on the 1st July 1917 with a small batch of 16 first-year pupils, say 2 from each district, and the Senior Surgeon is requested to take all necessary action in the matter including the provision of the requisite funds in the budget for the year 1917-18.

4. In the meantime the Chief Engineer is requested to cause the plans and estimates for the necessary buildings to be prepared in consultation with the Senior Surgeon and in conformity with the rules issued with Government Order No.2859-61/M1. 246-15-3 dated the 11th November 1916,

and to provide for the work in the next year's Public Works budget.

5. The Medical Officer in charge of the Victoria Hospital, Bangalore, will be the Principal of the Medical School as proposed by the Senior Surgeon.

6. The question of instituting the L.M.S. Degree with suitable provision for fees to Lecturers &c. may be considered and suitable proposals submitted by the Senior Surgeon within 3 months.

Secretary to Government,
General Department.

To

The Senior Surgeon in Mysore
" Chief Engineer of Mysore,
" Comptroller, Mysore Government, through Branch II,-
" Deputy Commissioner, Bangalore district,
" President of the Bangalore City Municipal Council.

Fair draft as approved by the Second Member on 26.2.17.

TEM.

Memorandum regarding the ~~Scheme for establishing~~ a Medical School in Bangalore.

Scope and Object.

The Medical School is primarily intended to train Sub Assistant Surgeons required for the Mysore Subordinate ---- Medical Service. When, however, accommodation is available, admission will be given to candidates desiring to qualify themselves.as Private Medical Practitioners, preference being always given to natives of Mysore over outsiders. The development of the school, in course of time, to the grade of a College preparing candidates for Medical Degrees, will be kept in view.

Qualifications for admission.

Candidates for admission to the Sub Assistant Surgeon's course should not be less than 16 or more than 22 years of age; should produce a certificate of good moral character signed by the Head Master of a recognised High School or any Gazetted Officer of the Mysore Service; a physical fitness and vaccination or revaccination certificates according to the rules relating to the public service; and a certificate of having passed the Mysore Secondary School Leaving Certificate Examination or any other equivalent examination, such as the Matriculation Examination of any --- Indian University.

Rates of fees.

Each student will have to pay an admission fee of Rs. 2, a tuition fee of Rs. 36 per annum and an examination fee

of

17

of Rs. 15 for the final (or qualifying) examination, besides providing himself with the necessary books and instruments. In the case of stipend holders, the cost will be borne by the Medical Department.

Course of Study.

The course of studies for the Sub Assistant Surgeon's qualification will extend over a period of four years, the subjects being distributed as follows:--

First year.

1st Term.	2nd Term.
Chemistry.	Physics.
Anatomy.	Anatomy.
Dissections.	Dissections.
Physiology.	Histology and Chemical and Experimental Physiology.

Second Year.

Anatomy.	Anatomy.
Dissections.	Dissections.
Physiology.	Histology etc.
